INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/KR2004/003435

Box No. I Basis of the report	
1. With regard to the language , this report is based on the international application in the otherwise indicated under this item.	
This report is based on translations from the original language into the following	language
which is the language of a translation furnished for the purposes of:	
international search (under Rules 12.3 and 23.1(b))	
publication of the international application (under Rule 12.4)	
international preliminary examination (under Rules 55.2 and/or 55.3)	
 With regard to the elements of the international application, this report is based on (replate to the receiving Office in response to an invitation under Article 14 are referred to in this annexed to this report): the international application as originally filed/furnished 	acement sheets which have been furnished s reort as "originally filed" and are not
the description:	
pages	as originally filed/furnished
pages* received by this Authority on	as originary med/furnished
pages* received by this Authority on	
the claims:	
pages	oo onininalla 61 aug.
pages*as amended (toget	as originally filed/furnished her with any statment) under Article 19
pages* received by this Authority on	
pages* received by this Authority on	
the drawings:	
pages	
pages* received by this Authority on	as originally filed/furnished
pages*	
The amendments have resulted in the cancellation of: the description, pages the claims, Nos. the drawings, sheets the sequence listing (specify): any table(s) related to sequence listing (specify):	
This report has been established as if (some of) the amendments annexed to this report made, since they have been considered to go beyond the disclosure as filed, as indic (Rule 70.2(c)). the description, pages the claims, Nos. the drawings, sheets the sequence listing (specify): any table(s) related to sequence listing (specify):	ated in the Supplemental Box
If item 4 applies, some or all of those sheets may be marked "superseded."	

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/KR2004/003435

Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability	
	citations and explanations supporting such statement	,

1.	Statement			
	Novelty (N)	Claims	1-10	YES
		Claims		<u>N</u> O
	Inventive step (IS)	Claims	1-10	YES
		Claims		NO
	Industrial applicability (IA)	Claims	1-10	YES
		Claims		NO
		Claims Claims	1-10	NO YES

2. Citations and explanations (Rule 70.7)

Reference is made to the following documents:

D1 = US 5627193 A (06. 05. 1997)

D2 = US 6630506 B1 (07. 10. 2003)

D3 = W0 03-101450 A1 (11. 12. 2003)

D4 = W0 99-33460 (08.07.1999)

The present invention relates to furancarbonylguanidine derivatives which can be used as a NHE-1 inhibitor, a preparation method thereof and a pharmaceutical composition comprising the same.

D1 discloses quinoline-4-carbonylguanidine derivative and a preparation method therof and a NHE inhibitor containing the same. D2 discloses acyl guanidines which are used as NHE inhibitors. D3 discloses N-((3-oxo 2,3-dihydro-1H-isoindol-1-yl)acetyl)guanidine derivatives as NHE-1 inhibitors for the treatment of infarction and angina pectoris. D4 discloses acyl guanidine sodium/proton exchange inhibitors and method.

1. Novelty

None of the prior art disclose the compound of formula(I) claimed in the present invention and their property. Therefore, the present invention seems to be novel(PCT Article 33(2)).

2. Inventive Step

Although D1-D5 disclose the compounds showing a similar pharmaceutical activity as the compounds of the present invention, neither structural variation nor combination of different structural features of compounds disclosed therein lead to the structural properties as those described in the present invention. Thus the present invention is regarded as being inventive according to PCT Article 33(3).

3. Industrial Applicability

The present invention meets the criteria set out in PCT Article 33(4).
